This mother was talking about Velogen. Rubbed gently on a burn or abrasion the effect is almost immediate; the way is paved for quick healing and the chance of a scar is minimized. When used night and morning on the face and hands, or before going out of doors, Velogen keeps the skin white and satin smooth. It will not soil the most delicate fabric. A sign of played out nerves

It is a "let down" of nerve force, following months of high tension in resisting cold weather.

Nerves need nutrition—specialized nutrition which builds and maintains nerve cells to highest efficiency.

The vital and necessary constituents of all brain and nerve cells are water, albumin and organic Phosphate of Potash.

Water and albumin in generous quantities are supplied in every day food.

Phosphate of Potash, on the other hand, is often

The lack of this necessary element is usually just the difference between nerve strength and nerve weakness.

Grape-Nuts
